

Wolf Fields visit on Saturday 25 March

Eleven of us, and three dogs, had a most wonderful visit to Wolf Fields last Saturday and were blessed with a glorious sunny day.

It was an opportunity not only to meet Kailean but also his family. Kailean, his wife Kim and daughters, Limmy & Zoe, led us round the 3 acre site explaining the development of each of the features including the orchards, the story telling fire pit, the ponds, the beehive & demo area, bird watching area, bird nest cam and the sensory garden which included features for the deaf and the blind.

The photos show our volunteering effort of weeding around the fruit trees and digging an initial strip of the proposed wildflower meadow area. They also show the friendship established between Limmy & Zoe and Charlene & Warwick's three dogs, as well as the picnic lunch which was enjoyed by all, and generously supplemented by Kailean and family with spring rolls, samosas & tea.

Thank you to everyone who enabled us to deliver lots of adults' and children's forks & spades & other tools and 42 pairs of gloves for the volunteers. Please note that Kailean will be sending us an invitation to the Wolf Fields demonstration day on 25 June.
