Mission Partner update and prayer - A Rocha (UK)

Since our last update just a few weeks ago about our visit to Wolf Fields on 19 March we have been continuing to investigate the options for the wildflower meadow. We have received the results of the soil analyses and spoken to several companies about site preparation, sowing seed, ongoing maintenance and other success factors which we will summarise and pass on to Kailean.

We went to the Wolf Fields volunteer day on Wednesday 18 May, and we have arranged to go again on 22 June and 27 July. If anyone is interested in coming, please contact Carl Jackson. As a reminder the Wolf Fields “*Act for Nature Day*” is Saturday 25 June.

Please pray for:

- Kailean & Kim Khongsai to have wisdom when they are witnessing to non-Christians through their Southall Outside Church initiative and that they show the love of Christ through his creation.
- The successful completion of the Wolf Fields Wildflower meadow and the Labyrinth projects which will attract more wildlife and people to the reserve.
- Ben Nwokocha, the new Education Officer starting this month, who will be working closely with Kailean & Kim in promoting outdoor events and engaging with local schools and youth groups.
- A volunteer replacement beekeeper to take over from their existing one who may no longer be available from the autumn.
- The upcoming Wolf Fields events “*Community Art Day*” Saturday 18 June and “*Act for Nature Day*” for Churches, Saturday 25 June.
