News on OTS Compassion Campaign 2024/2025

The goal of OTS is to demonstrate the love of Christ by extending help to underprivileged people in Pakistan through need-based support.

Ever since 2020, due to the rise of Covid-19, OTS has started its Compassion Campaign with the slogan '*Putting our Theology into Practice*'. In total they have helped more than 5,000 families starting from 2020 (during Covid), flood victims in Sindh (in 2021 and 2022) and the victims of the Jarnawala incident where twenty-six churches and one hundred homes were burnt and destroyed.

As the immediate crises subsided, their mission evolved beyond emergency relief. They are now addressing such needs as assisting vulnerable families across Pakistan with food and financial

support tailored to their circumstances. Through sustained efforts, OTS remains committed to bringing hope, dignity, and lasting change to those in need. During the current campaign, they have reached a total of 202 beneficiaries. Among these, there are 104 women (including widows, domestic workers, and Bricklin workers), 77 men (comprising labourers, daily wage earners, and Bricklin workers), and 21 orphaned children. They focus on serving humanity through their contributions, supporting underprivileged

individuals in various ways, and sharing the love of our Lord Christ without distinction of religion, caste, denomination, gender, or class.

OTS is immensely grateful to the Lord Almighty, whose continuous grace enables them to make a way and to be a source to reach the unprivileged people of different segments of their society. They are humbled before God for his guidance, wisdom, and provision throughout this campaign reporting period.
