

Mission Partner prayer and update 24 April 2026 from Tanka Subedi

Tanka provided the following update from Nepalganj, expressing thanks for all that God is doing...

Our time in Nepalganj was very fruitful. I visited the Apostolic Children's Home, spent time with the children, shared from the Word and prayed with them. Their joy and eagerness to learn was truly encouraging!

I preached at Asha Church, the central church of the region. This church is led by Kul Prasad and Mohan and another pastor who is serving closely with us, named Vibek Das. It was encouraging to see how God is working through their ministry.

We also held a seminar for pastors which focused on disciple-making. One pastor joined us from the India border and Pastor Manoj travelled from Dang to participate. This was a valuable time of learning and strengthening leaders.

Please would you continue to pray for our visit to Albania? We begin our journey on Saturday night, and our flights are booked but we are still facing visa challenges. Travelling to Albania has always been difficult but as Rita and I both hold US visas, we are praying this will help smooth the process.

Thank you,
Tanka

Update from NEPALGANJ
Thankful for what God is doing!

A FRUITFUL VISIT
The Visit to Nepalganj was very fruitful. I visited Apostle Children Home, spend time with children, they wanted me to share from the word and I prayed for them as well.

MINISTRY IN ASHA CHURCH
I preached in Asha Church, which is the central church for that region. Kul Prasad and Mohan lead the church there. Another pastor working closely with me is Vibek Das.

DISCIPLE MAKING SEMINAR
We had a seminar for pastors on disciple making. Including a pastor from Indian boarder. Pastor Manoj from Dang also joined us.

PLEASE PRAY FOR OUR TRAVEL TO ALBANIA
Our journey will start on Saturday night. Flight already reschedules twice, hope the flight will be on time now. Traveling with Nepali passport is always challenging. Rita and I, both have a US Visa, so hope there will be no problems.

Blessings
